

Melody Gatan

Bellflower, CA • melodygatan@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

EDUCATION

California State University, Long Beach

December 2025

Bachelor of Science in Computer Science

GPA: 3.66

TECHNICAL PROJECTS

PennySprout — AI Personal Finance Analyzer | [GitHub](#)

June 2025 – June 2026

Next.js, React, Anthropic Claude API, Clerk, Recharts

- Built a full-stack web app that transforms bank-statement CSVs into categorized spending insights by parsing uploads, routing transactions through the Claude API, and rendering breakdowns and a 1–10 financial health score via Recharts
- Implemented end-to-end user flows including auth (Clerk), REST endpoints for file upload and analysis, and per-user CRUD operations for persistent data management

Animals10 Image Classifier (VGG16) | [GitHub](#)

December 2025

Python, PyTorch, Google Colab — CECS 456 Final Project

- Achieved 85% test accuracy on a 10-class animal dataset by implementing VGG16 from scratch in PyTorch with batch normalization, dropout regularization, and cosine annealing LR scheduling over 15 epochs, outperforming a ResNet50 baseline that overfit at comparable depth

Modo Matcha — Live Event Ordering App

July 2025 – August 2025

TypeScript, Firebase Firestore

- Designed and shipped a real-time drink-ordering system for a live catering event serving 200+ guests, with synchronized customer-facing and kitchen-facing screens to manage order flow with zero fulfillment errors
- Defined product requirements, scoped features, and validated real-time Firestore sync end-to-end before deployment

Cafinity — Full-Stack Cafe Discovery Platform | [GitHub](#)

August 2024 – May 2025

React, Firebase, Google Maps API, OpenAI API

- Reduced manual moderation overhead across 200+ cafe listings by integrating an OpenAI content moderation pipeline that automatically flagged policy-violating user submissions before review
- Implemented proximity-based search using Google Maps clustering and Haversine distance filtering to surface nearby cafes by user location

EXPERIENCE

Fulfillment Expert — Target

August 2021 – Present

Cerritos, CA

- Consistently met daily order fulfillment targets in a high-volume retail environment by managing pick/pack workflows, inventory accuracy, and same-day shipping coordination across a large team

LEADERSHIP & ACTIVITIES

Web Developer | CSULB Esports Association

September 2023 – July 2024

- Maintained and improved the club's tournament website, refactoring PHP/MySQL queries and building a self-serve registration system to reduce manual coordination during seasonal events

Secretary | Women in Computing, CSULB

August 2023 – April 2024

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, SQL
- **Frameworks & Libraries:** React, Next.js, Node.js, Express.js, Tailwind CSS
- **Databases & Tools:** Firebase Firestore, MySQL, MongoDB, Git, GitHub, Google Cloud Platform, REST APIs, OpenAI API, Anthropic Claude API, Google Maps API
